HOW IT WORKS in FAST TRACK

Here is one of the many possible strategies:

Assuming that you invite 5 people who buy a complete set of packages and each of them does exactly the same thing:

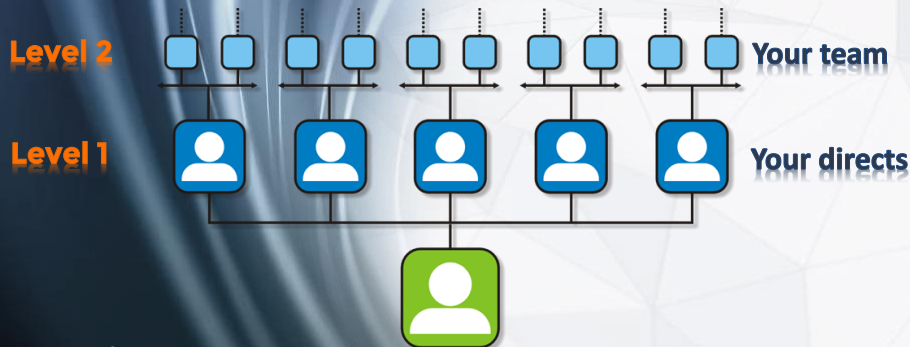

A complete set of packages for ULTIMATE = 960 FTD

Level 1 - 8% on 1 complete set is 76.8 FTD x 5 people = 384 FTD

Level 2 - 5% on 1 complete set is 48 FTD x 25 people = 1200 FTD

At this point you would earn

1584 FTD with us

If you dedicate the funds that you earned from the Marketing Plan for purchasing a **Passive Contracts**, you will earn up to **44% more** within **120 business days**.

$$1584 \text{ FTD} + 696,96 \text{ FTD} = 2280,96 \text{ FTD}$$

In total, you have earned
2280,96 FTD

And what if your team at the 3rd level does the same thing?
And what if you dedicate such funds for a Passive Contract too?
You will earn 5184 FTD more.

What if the same thing happens on the other levels? ...
